**Smith & Loveless Inc. Releases New Publication on
Factory-Built Wet Well Mounted Pump Stations**

LENEXA, Kan. – Smith & Loveless Inc. announces the publication bulletin, No. 614 *Factory-Built & Tested Pump Stations*. The bulletin provides information on the S&L factory-built Wet Well Mounted Pump Station, including design data, station options and wet well mounted station types.

The bulletin also includes information on benefits of the S&L wet well mounted pump station, including the variety of custom and standard options that are available for station enclosures. Custom prefabricated building enclosures allow end-users—especially in northern climates—to specify above-grade stations with climate-controlled workspace. All S&L WWMPs come standard with quality enclosures, including easy-lift and rolling styles.

To obtain a copy of this bulletin and to learn more about the benefits and features of Smith & Loveless factory-built Wet Well Mounted Pump Station, please contact answers@smithandloveless.com to request bulletin #614 or visit www.smithandloveless.com.

Founded in 1946, Smith & Loveless Inc. is a global leader in the water and wastewater industry, offering a complete line of equipment and boasting installations in more than 70 nations around the world. For more information on Smith & Loveless Inc and its products, visit www.smithandloveless.com.
