Smith & Loveless Releases SOLUTIONS 3.0 Pumping Systems Catalog

LENEXA, Kan. – Smith & Loveless, Inc. a global leader in the design and manufacture of a complete line of water and wastewater treatment and pumping equipment, has released **SOLUTIONS** Pumping Systems CD-ROM catalog, version 3.0.

The new **SOLUTIONS** Pumping Systems Catalog highlights include new pumping products and modifications with the latest updated drawings, specifications, pump curves, and technical information. The CD-ROM also features color brochures, videos and a ‘product showcase’ that summarizes each product. Easy to navigate, it connects users directly to the information desired in an efficient manner.

To complement the long life cycle and great efficiency of S&L pumps, the efforts of producing information on CD-ROMs is yet another way to help the environment. The CD-ROM version saves thousands of pages of paper while reinforcing the Smith & Loveless commitment to the Green movement.

To obtain this interactive CD-ROM product catalog and learn more about the benefits of Smith & Loveless’ pumping systems, please visit smithandloveless.com or contact the company at (913) 888-5201.
