## **Smith & Loveless Launches New ShadeAide.com Website**

LENEXA, Kan. — Smith & Loveless Inc. announces the launch of [ShadeAide.com](http://ShadeAide.com), a new website promoting the leading control panel Human-Machine-Interface (HMI) cover, **ShadeAide™**. The new website displays the product's complete range of sizes and colors, easy-to-read HMI brand compatibility charts, and a simple inquiry/order form for submission to Smith & Loveless' After Market Division.

Designed for the wide spectrum of electrical control panel suppliers and end-users, the easy-to-install **ShadeAide™** protects and extends the life of panel HMIs from outside elements, especially the sun's damaging UV rays. With its easy-open cover and self-supporting flaps, **ShadeAide™** enables operations personnel to clearly view and interact with any HMI screen. Not only does it shade from the sun and the elements for long-lasting protection, the **ShadeAide™** can be locked for even additional safeguard.

Visit the site at [www.ShadeAide.com](http://www.ShadeAide.com).
