Smith & Loveless Launches the Water Industry's Newest MBR at WEFTEC Booth #5347

Lenexa, Kan.—Smith & Loveless is displaying the latest in Membrane Bioreactor technology with its launch of the new **TITAN MBR™** at WEFTEC's Water Quality Event in New Orleans. Delivering *the best MBR experience*, the system can first be seen at **Booth #5347** at the Morial Convention Center beginning October 1.

Smith & Loveless' new design of the **TITAN MBR™** showcases the industry's latest advancements in packaged MBRs. Enhanced with smart automation (including for decanting and chemical cleaning functions), touchscreen PLC controls, minimal O&M requirements and robust construction, **TITAN MBR™** delivers the best in MBR operation.

Available in several compact factory-built and packaged models that are pre-wired and shipped directly to the job-site, the new **TITAN MBR™** results in the highest of quality effluent (including suitable for reuse) and a superior total cost of ownership. Backed by Smith & Loveless' single-source support and more than 70+ years of experience, **TITAN MBR™** is the best investment in MBRs for "Protecting Water. Protecting People."

Come see the new **TITAN MBR™** at WEFTEC Booth #5347 to learn more about how this new clean water system can create the greatest value for end-users. Also visit S&L's Website and Social Media (@Smith_Loveless on Twitter) beginning Monday, October 1 for more information on the new **TITAN MBR™** product launch. Media inquiries and interview requests can be scheduled with Darby Ritter, Marketing Communications Manager at (913) 206-8901 or at dritter@smithandloveless.com.
